### A homonymy in Psyllidae (Homoptera): a new name for *Neopelma* Burckhardt<sup>1</sup>

Fernando Costa Straube <sup>2</sup>  
Michel Miretzki <sup>2, 3</sup>

ABSTRACT. *Burckhardtia nom. nov.* is proposed for *Neopelma* Burckhardt, 1987 (Psyllidae, Homoptera), preoccupied by *Neopelma* Sclater, 1860 (Pipridae, Aves).

KEY WORDS. Homoptera, Psyllidae, *Neopelma*, *Burckhardtia*, homonymy, Aves

#### *Burckhardtia nom. nov.*

*Neopelma* Burckhardt, 1987: 330 (type-species: *Neopelma baccharidis* Burckhardt, 1987: 332, by original designation), non *Neopelma* Sclater, 1860: 467.

BURCKHARDT (1987) described the genus *Neopelma*, a jumping plant lice of the family Psyllidae, for two proposed new species from several localities of South America (Chile, Brazil, Argentina and Paraguay).

However, this name is preoccupied by *Neopelma* Sclater, 1860 a genus including five bird species of the neotropical family Pipridae from rainforests of Atlantic and Amazonic regions (SNOW 1979; WHITNEY *et al.* 1995). Therefore, *Burckhardtia nom. nov.* is here proposed to substitute *Neopelma* Burckhardt, 1987. The nominal genus is in honor to the entomologist Daniel Burckhardt.

ACKNOWLEDGEMENTS. To Rodney Cavichioli, Paulo H. Labiak and Ana L.C. Prudente for the warning and providing literature.
