

## ERRATUM: No impact of rural development policies? No synergies with CCTs? The IFAD-supported Gavião Project in Brazil

Due to a mistake by the authors, the article “No impact of rural development policies? No synergies with CCTs? The IFAD-supported Gavião Project in Brazil” (DOI <https://doi.org/10.1590/1806-9479.2022.268158>), published in *Revista de Economia e Sociologia Rural* 2023;61(4):e268158, was published with an error.

On page 19, there should be an acknowledgements section with the following statement:

### Acknowledgements

This material is the result of work undertaken, in part, via a subcontract with the University of Los Andes as part of research within the IFAD “Programme for Conditional Cash Transfers and Rural Development in Latin America.” We thank the participants in the six-country IFAD/Uniandes project for feedback on the research, CNPq and Capes for financial support of Costa’s dissertation research, Fernanda de Alcântara Viana who was responsible for the field work in Bahia, and IBGE for access to the Agricultural Census microdata. The views expressed are solely those of the authors.

The authors and journal apologize for this error.
